About NEPAL

Nepal, officially the Federal Democratic Republic of Nepal is a landlocked central Himalayan country in South Asia. It has a population of 26.4 million and is the 93rd largest country by area.[Bordering China in the north and India in the south, east, and west, it is the largest sovereign Himalayan state.

Nepal has a diverse geography, including fertile plains,[12] subalpine forested hills, and eight of the world's ten tallest mountains, including Mount Everest, the highest point on Earth. Kathmandu is the nation's capital and largest city. It is a multiethnic nation with Nepali as the official language.

The territory of Nepal has a recorded history since the Neolithic age. The name Nepal is first recorded in texts from the Vedic Age, the era which founded Hinduism, the predominant religion of the country. In the middle of the first millennium BCE, Gautama Buddha, the founder of Buddhism,

was born in southern Nepal. Tibetan Buddhism influenced parts of northern Nepal since the 8th century.

Nepal hosts the permanent secretariat of the South Asian Association for Regional Cooperation (SAARC), of which it is a founding member. Nepal is also a member of the Non Aligned Movement and the Bay of Bengal Initiative. Nepal has long standing bilateral treaties with the United Kingdom since 1923, India since 1950, and China since 1960.[19][20] The military of Nepal is the fifth largest in South Asia and is notable for its Gurkha history, particularly during the world wars, and has been a significant contributor to United Nations peacekeeping operations.

Modern Nepal is a federal secular parliamentary republic. It has seven states. Nepal is a developing nation, ranking 145th on the Human Development Index (HDI) in 2014.

Location: Between India & the Tibetan Autonomous Region of the People's Republic of China.

Area & Population : 147,181 Sq. Kms & Approximately 22 Million

Latitude & Longitude: 26°12' and 30°27' North & 80 degree 4' and 88 degree 12' East

Capital: Kathmandu

People: Over 100 Ethnic Groups & 70 Spoken Languages.

Political-System: Federal Democratic Republic of Nepal.

Topography: From the World's Deepest gorge 'Kali-Gandaki' to the highest point on earth, Mt. Everest at 8848m.

Climate: Climate ranges from sub-tropical in the low lands to Arctic higher altitudes.

Seasons Winter (December - February) Summer (March - May) Monsoon (June - August) Autumn (September - November)
National Bird & National Flower Impean Pheasant (Danfe) & Rhododendron Arboreum (Lali Gurans)

National Festivals: Dashain, Tihar, Shivaratri, Nepali new year (Baishak first), Tej, Chad etc,

Medical College in NEPAL

Nepal has been receiving much attention from international students who are looking to MBBS Admission in Nepal. Their medical institutions are fully equipped with all the required amenities to teach and share information concerning the medical science

Currently, there are four categories of MBBS colleges in Nepal-those that are affiliated with Tribhuvan University, Kathmandu University, B.P. Koirala Institute of Health Science and Patan Academy of Health Science.

The Bachelor of Medicine and Bachelor of Surgery (MBBS) is a four and a half year integrated program followed by a compulsory internship training of one year. Generally, the MBBS program is divided into three parts: the first two years of study consists of basic medical sciences. These years also include an introduction to clinical sciences. Over the next two and half years, students learn the principles and skills of clinical medicine by rotating through various medical specialties. The final one year consists of internship.

Reasons to Choose MBBS/BDS in Nepal

- ❖ Degree is Recognized by Medical Council of India & Srilankan Medical Council, Srilanka
- ❖ Curriculum of Global Standard
- ❖ WHO Enlisted Institutions
- ❖ Affordable cost and fee can be paid in Installments
- ❖ Qualified and Experienced teaching Faculties
- ❖ Friendly Environment with food & Culture similar to India & Srilanka
- ❖ Colleges have Own hospitals with good patient flow
- ❖ Easy transportation from Srilanka
- ❖ Many Srilankan Students doctors have already passed from Nepal and working successfully
- ❖ The MBBS degree awarded by TU/KU is formally recognized by all SAARC, Commonwealth & ASIAN countries and is reciprocally recognized by Europe, Asia, Middle East, America, Australia and African continents.

Eligibility Criteria

to Study Medicine in Nepal

(A) MBBS Course Duration : 4.5 Year + 1 Year Internship

- ❖ Must have passed qualifying examinations (HSC/ 'A' level) or equivalent examinations with any one of the following conditions:
- ❖ Completed 10+2 years of education or equivalent with minimum of 50% marks in aggregate and not less than 50% of marks in each subjects of Physics, Chemistry and, Biology (PCB).
- ❖ Age should be at least 17 years by the last date of submission of application are eligible to apply in the MBBS and/or BDS courses.
- ❖ At least 50% marks in Physics, Chemistry, Biology and English i.e. minimum 'C' grades for Sri Lankan and 'D' grades for International boards (EDEXCEL/Cambridge etc), at the 'A' Level or equivalent examination
- ❖ If English is not opted at the 'A' Level, then at least 50% marks in English at 'O' Level or equivalent examination
- ❖ TOEFL / IELTS / SAT are not required

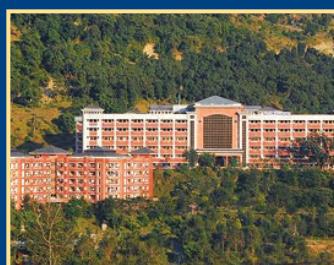

(B) Application form for admission into Medical colleges in Nepal is available in the month of July / August which can be collected from the Consultancy Office

- ❖ Dully filled in application form along with following documents
- ❖ Copy of Passport
- ❖ 06 passport size photographs
- ❖ O" & "A" level certificate i.e Marksheets, character certificate, Migration certificate

C) Admission will be subject to the Kathmandu University/Tribhuwan University norms and qualifying an entrance exam conducted by the Kathmandu University/ Tribhuwan University , for which the applicants are advised to consult the consultancy

(D) Application Fee to Apply in the MBBS/ BDS Courses in Nepal

- ❖ The Application form to apply in the concerned college in Nepal will be approx INR 2000 to 3000 (Non Refundable) for Indians & 50 to 100 USD Srilankan Students.

Programs & Academics Overview

BACHELOR OF MEDICINE AND BACHELOR OF SURGERY (MBBS PROGRAM)

Medical Colleges in Nepal provides a four-and-a-half-years MBBS degree program in all the preclinical subjects and selected clinical subjects. The four-and-a-half years MBBS course is divided into 9 semesters of 6 months each. Upon successful completion of the course, students will undergo a 1 year compulsory residential rotating internship. The medium of instruction is English.

Many students have passed out Reputed Medical Colleges in Nepal till date & most of these graduates have successfully qualified for USMLE (USA), PLAB (UK), ERPM (Sri-Lanka), AMC (Australia) with commendable scores and also completed their post-graduation in USA, Canada, UK, South Africa & Australia.

MBBS CURRICULUM-Preclinical (Semesters I-IV):

The first & second year of instruction cover integrated Preclinical Sciences, Community Medicine, Introduction to Clinical Medicine and Medical Informatics.

Preclinical Sciences include Anatomy, Biochemistry, Microbiology, Pathology, Pharmacology & Physiology. These subjects are taught in an integrated manner & are incorporated into Community Medicine and Introduction to Clinical Medicine. Students gain clinical knowledge & problem solving skills. Medical Informatics is integrated to provide computer expertise relevant to medical education.

At the end of the first year & the second year there are university examinations on each of the above subjects. A student must complete all subjects of the pre-clinical sciences - first year MBBS within three years from the date of admission & second year within four years from the date of admission.

A student is required to pass all the preclinical subjects before he/she is allowed to be promoted to the Clinical Sciences (Semester V).

Clinical Sciences (Semester V-IX):

Clinical Sciences include the subjects of Forensic Medicine, Community Medicine, Ophthalmology (EYE), Otorhinolaryngology (ENT), Medicine & Allied Subjects (Psychiatry, Dermatology, Radiology, Emergency Medicine & more), Surgery & Allied Subjects (Orthopedics, Anesthesiology & more), Obstetrics & Gynaecology, Paediatrics, and other allied medical and surgical specialities & subspecialities.

The third year MBBS university examinations in Forensic Medicine, Community Medicine, Ophthalmology & Otorhinolaryngology are held at the end of the seventh semester. A student cannot be

admitted to the ninth semester until he/she has passed all four subjects. At the end of nine semesters are the final MBBS university examinations in Medicine and Allied Subjects, Surgery & Allied Subjects, Obstetrics & Gynaecology & Paediatrics.

Clinical training is conducted at the Concerned Medical Teaching Hospital and associated local hospitals.

EVALUATION:

A system of continuous evaluation is followed through fortnightly tests, semester exams, end-posting evaluations, seminars & problem based learning sessions. The continuous evaluation system has helped to achieve excellent results in the university examinations.

Teaching Methodology

The teaching program in preclinical consists of -

- Didactic classroom lectures
- Practicals
- PBLs/Seminars
- Community/ Hospital visits

Fortnightly academic time tables are prepared, giving details of the teaching program with topics to be covered. These are put up well in advance. To support the integrated approach, seminars and PBLs are conducted every fortnight on important diseases/ syndromes. This gives the preclinical students a better clinical orientation of the systems being taught. Concurrent evaluation is done by fortnightly test, viva-voce, seminars and PBLs. Semester examinations are held at the end of each 6 months.

The Teaching Program in Clinical Sciences consists of:-

- Didactic classroom lectures
- Clinical/practical training in hospitals, wards / Community visits/ Field training camp
- Symposia/Seminars
- Clinical meetings/ Faculty talks/ Guest lectures

The above teaching sessions take an average of forty two hours/week, out of which there are 12 didactic lectures per week.

The stress is mainly on Clinical/ Practical training. The students are periodically assessed by conducting end posting clinical exams (Clinical and Viva), mid-semester exams and end-semester exams.

INTERNSHIP

One year of rotating internship is compulsory. The Kathmandu University and Nepal Medical Council have approved six different schemes for internship for students of different countries, as per the requirements of their medical councils. Students do their internships in Nepal, India, Sri Lanka, Australia, USA, UK and South Africa. Internship rules are subject to change as per the rules of the medical council.

Tribhuvan University (TU), which was established in 1959, is the first national institution of higher education in Nepal. Tribhuvan University is a public university in Kirtipur, Kathmandu, Nepal. TU is the oldest university in Nepal. [4] In terms of enrollment, it is the ninth largest university in the world. The university offers 2,079 undergraduate and 2,000 postgraduate programs across a wide range of disciplines. As of September 2014, the university has 88 constituent campuses and 1,033 affiliated colleges across the country.[5] Since it is government financed, it is less expensive than private universities.

After the second democratic movement of 2006, the Prime Minister of Nepal is the ceremonial chief, the Chancellor of the University, whereas the Minister of Education is the Pro-Chancellor. The Vice Chancellor is the Chief Executive of the university. He is assisted by the Rector in academic programs and the Registrar in financial management and general administration.

Tribhuvan University is a non-profit making autonomous institution funded by the Government of Nepal. On January 8, 8, 2013, the government of Nepal has principally agreed to declare Tribhuvan University as the Central University.

Institute of Medicine (IOM) was established with the following goals:

- Production of human resources for health services
- Provide health services through its health institutions
- Conduct research in health sciences

Courses offered:

MD/MS/MBBS/BDS/BPH/Nursing/MIT/BASLP/Pharmacy/BAMS/Public health and many more.....

Entrance Information for IOM

IOM conducts an entrance examination usually in the month of September each year. 100 objective questions 1 mark each are asked in entrance examination which lasts 2 hour.

Subjects:

Physics (20 marks)	Chemistry (30 marks)
Zoology (30 marks)	Botany (20 marks)

Kathmandu University

Dhulikhel www.ku.edu.np | www.kusms.edu.np | www.dhulikhelhospital.org

Kathmandu University is an autonomous, not-for-profit, non-government institution dedicated to maintain high standards of academic excellence. It is committed to develop leaders in professional areas through quality education.

Within a period of 21 years, KU has built not only reasonable infrastructure, but also established a track record of academic excellence. At present, the University offers various undergraduate, graduate and postgraduate programs in science, engineering, medicine, management, education, arts, pharmacy, environment, music, human & natural resources, information technology and biotechnology, through School of Science, School of Management, School of Engineering, School of Medical Sciences, School of Education and School of Arts. In addition to 3695 students studying in its constituent campuses 7500 students are in its affiliated colleges.

The academic programs of the University are based on credit-semester system with continuous internal evaluations. The University has adopted 1 to 10 teacher-student ratio. However, KU is very cautious in recruitment of every single faculty or non-teaching staff. The staff strength at KU is 458 for teaching and 725 for non teaching (Including Paramedical staff). The academic calendar of minimum 230 days is strictly adhered to; admission of students is based on merit, based on their score in the previous examination and written and oral entrance tests.

The main thrust of KU is to make it a research-cum-teaching university in science, management, engineering, medical sciences, arts and education.

Entrance Information for KU

KU conducts an entrance examination usually in the month of September/October with 100 objective questions 1 mark each are asked in entrance examination which lasts 2 hour. Its syllabus is similar to that of MOE (Ministry of Education, Nepal)

Subjects:

Physics (20 marks)	Chemistry (30 marks)
Zoology (30 marks)	Botany (20 marks)

B.P. Koirala Institute of Health Sciences

Autonomous College
www.bPKIHS.edu

Dharan

B.P. Koirala Institute of Health Sciences (BPKIHS) was established on Jan 18, 1993 and subsequently upgraded as an autonomous Health Sciences University on Oct. 28, 1998 with a mandate to work towards developing socially responsible and competent health workforce, providing health care & involving in innovative health research. The Institute, located in Eastern Nepal, has extended its continued health services through teaching district concept to Primary Health Care centers, District Hospitals and Zonal Hospitals in different districts of the region. This University is aptly named after Bisheshwar Prasad Koirala, Nepal's visionary leader in social uplifting, firm believer of national integration.

This Institute is envisaged as one of the successful examples of Nepal-India co-operation. The Health Ministers of the two countries signed the Indo-Nepal agreement for establishment of BPKIHS on the Hindu auspicious day of Mahashivaratri (Mar 10, 1994)

BPKIHS has a vision of a self-governing, self-reliant international Health Sciences University attracting students and teachers from all over the world to its constantly innovative educational programs. BPKIHS has also been envisioned by the Nepali Parliament as a centre of national importance to produce skilled health workforce to meet the country's need and also to function as a center of excellence in the field of tropical and infectious diseases. Its best example is the ongoing Kala-azar Project in collaboration with international bodies. BPKIHS has postgraduate, undergraduate, and university certificate programs and from this year starting Doctor of Philosophy.

PG Specializations in B.P.Koirala Institute of Health and Sciences, Ghopa, Dharan, Nepal

MD (Anesthesiology, Biochemistry, Dermatology and Venereology, General Practice and Emergency Medicine, Forensic Medicine and Toxicology, Obstetrics and Gynaecology, Health Professions Education, Internal

Medicine, Microbiology, Ophthalmology, Otolaryngology & HNS, Pediatrics and Adolescent Medicine, & HNS, Pediatrics and Adolescent Medicine, Pathology, Clinical Pharmacology and Therapeutics, Basic and Clinical Physiology, Psychiatry, Radiodiagnosis and imaging) [MS Surgery, MS Anatomy, MS Orthopedics] [PhD] program. It has four colleges. Medical, Dental, Nursing and Public Health with a 700-bedded Central Teaching Hospital. The medical college has well-established major clinical and basic science departments. Postgraduate programs [MD, MS, and MSc] were started in 1999. All the MD, MS, MDS, MSc and MPH degrees awarded by BPKIHS are recognized by Nepal Medical Council and respective councils of Nepal. The MD/MS degrees (anesthesiology, clinical pharmacology & therapeutics, dermatovenerology, ENT, internal medicine, orthopedics, pediatrics, psychiatry, radiodiagnosis, and surgery) are recognized by Medical Council of India [MCI]. Similarly, there is continued effort for getting MCI recognition of other disciplines as well. While selecting candidates for MD/MS/MDS postgraduate studies, the institute has given due recognition to the medical graduates who have served in the primary health centers and/or district hospital.

When will be the entrance exam?

BPKIHS conducts an entrance examination usually in the month August.

What is the exam format for entrance?

200 objective questions 1 mark each are asked in entrance examination which lasts 3 and half hours.

Manipal College of Medical Science

Affiliated to Kathmandu University | www.manipal.edu.np

Manipal College of Medical Science (MCOMS) Nepal is one of the premier institutions of Nepal, offering programs in medicine. It was established in 1994 as first private medical college of Nepal and was born out of the vision to build global leadership in human development, education and health care partnerships and a "Health for all" mission.

Rated amongst the best college of Nepal, Manipal College of Medical Sciences (MCOMS) is an ideal centre of learning for medical studies. MCOMS is a modern campus with all conveniences, state-of-teaching aids and well equipped labs. MCOMS is also a cultural hub of activity as students from many different countries come to take advantage of the exceptional faculty, holistic curriculum and innovative teaching methods.

Manipal Teaching Hospitals: The 750 bed capacity Manipal Teaching Hospitals (MTH) is a 7 storey building with a total built up area of 5 lakh sq ft. It is a magnificent edifice, blending modernity with the traditional Nepali style of architecture. The outpatient services were inaugurated in September 1998 and inpatient services started in January 1999, with modern diagnostic facilities and support services for secondary and tertiary level medical problems. MTH has been constructed with a futuristic approach laying emphasis on the space required for teaching program for the undergraduates, postgraduates and allied health manpower. Manipal Teaching Hospital set up with state of the art facilities for superior medical education and healthcare.

COURSES OFFERED

MBBS | MD | Nursing

Milestones:

- Establishment of undergraduate medical degree program in 1994 with an annual intake of 100 admissions
- Affiliation with the Kathmandu University with effect from 31st December 1994
- Commencement of the 750-bedded Manipal Teaching Hospital in 1998
- Full and permanent recognition by the Nepal Medical Council on 6th August 1999
- Recognition by the Sri Lankan Medical Council on 24th August 1999
- Listing of college in the WHO directory of Accredited Medical Schools enabling the graduates appear for various international licensing exams e.g. USMLE, PLAB etc.
- Recognition by the British Columbia Student Assistance Program (BCSAP) and Ontario Student Assistance Program (OSAP), Canada
- Recognition of the MBBS degree by the Government of India under Section 12(2) of the IMC Act 1956 on 26th September 2001
- Establishment of postgraduate degree programs in Pathology (MD) and other Basic Sciences (MSc) subjects in 2000
- Commencement of allied health sciences (BMLT & BMIT) degree programmes in 2001
- Increase of the annual intake from 100 to 150 in respect of the undergraduate medical degree program (MBBS) in August 2003 split into two batches of 75 each commencing in August and February each year
- Extension of the postgraduate degree programme to Internal Medicine (MD) in 2005
- Extension of the postgraduate degree program to all other disciplines in 2007-2008
- BSc Nursing program commenced with 20 seats in August 2009, enhanced to 30 subsequently
- Merger of the August and February intakes of 75 into one batch of 150 with effect from 1st August 2010.
- Commencement of DM (Cardiology) program in Feb 2013
- Addition of a number of ultra-modern speciality services including NICU, Neuro Surgery, Linear Accelerator, Spiral CT Scan, MRI etc. in the Manipal Teaching Hospital and continuous upgradation of existing hospital services which include addition of latest equipments e.g. Phaco in the Ophthalmology dept, ICU's equipped with Ventilators and Monitors etc.
- No capitation fee – a remarkable achievement in the field of medical education
- International Students and Faculty Members at the Campus – Since its inception the college has been attracting international students and the number is increasing every year in view of the global teaching standards employed at MCOMS. The college has also been successful in attracting international faculty members.
- A large number of graduates are placed at various prominent international health care institutions after passing out the international medical licensing exams e.g. USMLE & PLAB with scores up to 99%.

Kathmandu Medical College

Affiliated to Kathmandu University | www.kmc.edu.np

Birat Medical College

Affiliated to Kathmandu University | www.biratmedicalcollege.com

Birat Medical College (BMC) is the newest medical school in Nepal. Established in 2014 as an extended program of Kathmandu University, BMC is now gearing up for its fifth intake. Each year 75 national and international students join BMC to pursue their life-long passion and goals.

Birat Medical College (BMC), an institute under Kathmandu University, has on site a specialized campus dedicated to the education and preparation of Medical Health professionals with strong commitment to further workforce development and continuing education. BMC campus, spread over 22 bigha (over 33 acres) of land, comprises of state-of-art academic and research facilities, consisting of spacious and well equipped laboratories, dissection halls, museums with large number of specimens, library etc.

Birat Medical College (BMC) was awarded an extension program by The Kathmandu University since August

2014. This fully accredited college currently runs an MBBS program as an extension of Kathmandu University School of Medical Science (KUSMS). Finance and Operation of BMC is independent but is directly under the supervision of KU in terms of Academics, Examination and Teaching Calendar.

Birat Medical College is located at Tankisinwari, Biratnagar, with 15 specialized departments. Birat Medical College, Biratnagar, is the outcome of Dr. Gyanendra Man Sing Karki. By 1992 AD, there were only few hospitals in Nepal regarding Gynaecological sector.

As of July 2014, we are Birat Medical College, School of Medicine. Our first class of medical students will begin their studies this August. Birat Medical college has been established on the base of Biratnagar Aspatal Pvt. Ltd. which has over the past two decades strived to uphold the culture of excellence in providing the finest healthcare.

- Commitment to teaching
- The location advantage
- A highly supportive educational environment
- Outstanding rural program

With a mind-set to address health workforce shortages, and under deserved poor communities, primarily in rural and regional Nepal, BMC has continually grown to partner up and run community based outreach programs, that aim to lead and direct the rural health agendas through the highest quality education, training, research and community services.

Through such outreach satellite centres, BMC offers a unique opportunities for our undergrad students to familiarize themselves with hands-on experience that would enhance their ability to acquire skills in dealing with current health issues through direct exposure with mass and users.

Reasons to Choose BMC

● Learn from the best

BMC has a commitment to the excellence that underpins all of the campus's activities, particularly teaching and research. We attract faculty of international standing, many of whom have extensively worked in the numerous research centres and esteemed universities, nationally and internationally. These academic leaders, many of whom with doctoral qualifications, pass on their expert knowledge to students, who then gain a respected qualification and skills required in today's challenging medical environment.

Janaki Medical College

Affiliated to Tribhuvan University | www.janakimedicalcollege.edu.np

Janaki Medical College (JMC) situated in Janakpur, Dhanusha, Nepal has been an initiative of Ram Janaki Health Foundation Pvt. Ltd to provide health education and healthcare services through its competent professionals in medical academia. Founded in December 1999 in the northern rural part of the Janakpur City, known as Ramdaiya Bhawadi, by a group of social and academic entrepreneurs with an immense local support, JMC has established itself as one of the most prominent medical colleges affiliated to Tribhuvan University.

The College has already opened its two hospitals, one in Ramdaiya with 160 beds where academic activities are also carried out and another one with 365 beds in the city centre. The premise of more than 16 bigahas (a local unit to measure the area of land) in Ramdaiya consists of academic and hostel buildings, hospital facilities and administrative blocks. Teaching-learning activities take place in Ramdaiya premise whereas the city hospital of the College provides bedside learning facility and internships to the students.

Academic and healthcare facilities provided by the College have been regularly inspected by the Institute of Medicine, Tribhuvan University, Nepal Medical Council and Ministry of Education, and suggestions and recommendations provided by them during inspection have been incorporated by the JMC management to improve its facilities by overcoming challenges in order to enhance academic and hospital services.

Janaki Medical College is now committed to learn from its past experiences and ready to take the responsibilities which will help ensure the quality health/medical education and hospital services through cutting-edge technologies. As a responsible stakeholder of health education and services, JMC is willing to have the partnership with the government and the community as well. A partnership between the government, local communities and Janaki Medical College for quality health education and services in Dhanusha and adjoining districts!

Nepalese Army Institute of Health Sciences

Affiliated to Tribhuvan University | www.naihs.edu.np

Tri-Chandra Military hospital (TCMH), established in 1925 AD (BS 1982) in honor of Nepalese soldiers who dedicated their life in the First Great War was considered one of the best modern hospitals of its time. Besides the historical identity and its architectural grandeur, TCMH has many more glories attached to its name. It was the first hospital to introduce fiber optic endoscope services and establish semi automatic pathology lab in the country. Its upgraded services were shifted to Shree Birendra Hospital (SBH) in Chhauni, Kathmandu in 1989 availing new technology and treatment modalities like MRI and Extra Corporeal Shock wave lithotripsy (ESWL), multislice Helical CT for the first time in Nepal. The transformation of TCMH services to SBH and subsequently NAIHS moving in on this footing has been considered major milestones in the history of Nepalese Army Medical Corps (NAMC).

The concept of NAIHS originated with the imminent need to improve patient care system within Nepalese Army Medical corps which could only be achieved by igniting medical potentialities of its health professionals with academic fire by having a medical institute of its own. There is an acute short fall of the qualified Health professionals in the country and Nepalese army Medical corps (NAMC) is no exempt.

SBH is a 490 bedded multidisciplinary modern hospital with all specialty services. However qa a few specialties need upgrading.

Nepal Army Medical Corps(NAMC) has vast experience of running hospital since last 80 years. SBH is the main teaching hospital of NAIHS. This hospital is commanded by a separate commandant directly under director General of Medical Services of Nepal Army Headquarters. All the clinical departments and most of the ancillary units are located at SBH. With the establishment of NAIHS,

Existing Clinical Departments in the Hospital

- Department of Medicine
- Department of Pediatrics
- Department of Psychiatry
- Department of Dermatology, Venereology & Leprosy
- Department of Chest Department
- Department of Surgery
- Department of Orthopedics
- Department of Radio-Diagnosis
- Department of Oto-rhinolaryngology
- Department of Ophthalmology
- Department of Obstetrics and Gynecology
- Department of Dental Surgery
- A&E Department
- Department of Anesthesia
- A fully equipped Urology unit with extra corporeal and intra corporeal lithotripsy, PCNL and other endourological modalities.
- Fully equipped Laparoscopic Surgical setup
- Physical and Rehabilitation Medicine Centre which is envisioned to be developed into a National Rehabilitation Centre of the country.
